CMA TIP Program: Local Streets and Roads Rehab & Safety -Call for Projects

Dear Project Sponsors:

The Alameda County CMA is issuing a call for local streets and roads rehabilitation and/or safety projects for programming into the CMA TIP. The CMA TIP funds for these projects will be made available through exchanges with CMAQ and TFCA funds as approved by the CMA Board. The current fund estimate for programming is approximately \$3,402,000. The fund estimate is available under separate cover and quantifies the funding expected to be available and the target amounts for programming by planning area. The CMA will be assisting with the coordination of planning area meetings near the end of January.

Project applications received from this call for projects will be considered for adoption into the CMA TIP program. It is important to note that the CMA TIP funds for the local streets and roads rehabilitation and/or safety projects that are the subject of this call for projects will not be available to reimburse eligible project costs until such time that the exchanged funds are received by the CMA. The exchanged funds are not expected to be received any earlier than FY 07/08. However, the CMA has approved provisions for project sponsors to incur eligible project costs using other funds prior to the availability of the exchanged funds. Reimbursements of eligible project costs will then be made as the exchanged funds become available.

All projects adopted into the CMA TIP are subject to the requirements of the CMA TIP Program, including the effective date of eligible costs, the eligibility for reimbursement of those costs, and the reimbursement schedule set forth in the CMA TIP funding agreement.

Project Sponsors are encouraged to incorporate bicycle and pedestrian improvements into all projects funded or programmed by the CMA to the extent practicable and feasible.

Application Procedure

The application form is an Excel workbook file that contains an introduction plus seven worksheets. All seven worksheets must be completed in their entirety by project sponsors. The application instructions are included in the application file. The application and the fund estimate have been posted along with this notice on the ACCMA's website:

www.accma.ca.gov

The CMA will be accepting completed applications until 5:00 pm Friday, February 25, 2005.

Completed applications may be submitted in print or via email. Submit project application and maps to:

Alameda County CMA
1333 Broadway, Suite 220
Oakland, CA 94612
